

TSINGTAO RACING | BRITISH SUPERSTOCK 1000 CHAMPIONS 2014

DANNY BUCHAN | HEL PERFORMANCE BRAKE LINES

HEL Performance offers access to one of the most comprehensive performance hose and fitting ranges in the world.

In our catalogue you will find a range of hose and fittings, adaptors and ancillary products covering the diverse spectrum of automotive requirements.

Since our company was founded we have been meeting the growing requirements of our customers with the highest quality products at the most competitive price.

All of our stainless steel brake line fittings are machined in-house on our own facilities - most companies choose to sub contract this work out to local engineering firms but at HEL Performance we like to be in complete control.

This allows us to act quickly to changes in the market, create new products to furnish a need and to follow the quality of the product from mill certificated material to finished part.

You are serious about performance - we are serious about providing you products engineered and manufactured to the highest standards.

Our quality accreditation by the TUV to BS EN ISO9001 : 2008 allows us to confidently supply products to those who demand the highest quality product with fast, accurate service.

Our underlying philosophy that each customer deserves the same unparalleled level of service has allowed our company to grow into the company you see before you today.

Quality performance products for **any** fluid transfer application with a dedicated team of professionals supplying expertise and service.

The following pages only give an overview of some of the range we offer. If it's a fluid transfer product then you can be sure that HEL Performance will be able to supply.

If you have a particular requirement which is not listed please contact us via :

T : 0044 (0) 1392 811601
