15,90 EUR / pcs.

incl. 19% VAT plus 7,60 EUR DHL-Shipping

Ready for dispatch within 1–2 working days. Delivery time approx. 3–5 working days!

Product information

HEL-Performance®stainless steel adapter for quick disconnect couplings
Banjo 10mm and fixed internal thread 3/8 "x24UNF

This adapter enables the assembly of quick disconnect couplings with 3/8 "x24UNF male thread and sealing cone.

As a special feature, this new adapter is designed so that e.g. quick disconnect couplings type SPH.03 of the Stäubli brand can be screwed in directly. The length of the fixed internal thread in size 3/8 "x24UNF is designed so that the coupling fits perfectly. Sealing is provided by the integrated sealing cone.

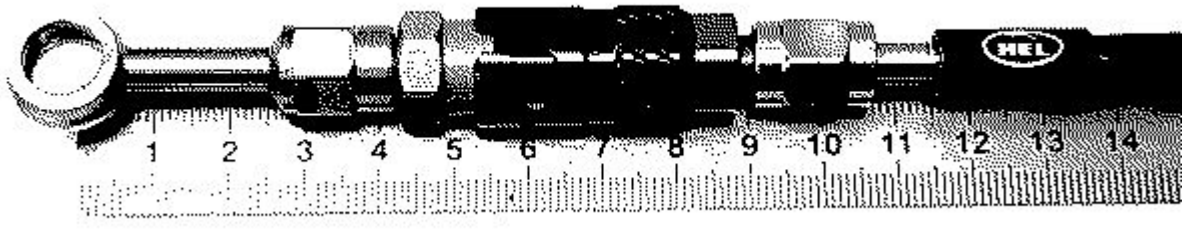
The adapter can be cranked up to 90° or bent sideways. The combination of cranked and bent sideways (RB or LB) is also possible at no extra charge. If required, please enter the desired angle in the comments field.

The stainless steel adapter has 1 x banjo 10mm and 1 x internal thread 3/8 "x24UNF !

Scope of delivery: 1 x stainless steel adapter

Length from center of banjo to end of internal thread = approx. 43mm

Length including quick disconnect coupling (Stäubli SPH.03) and connection with press sleeve = approx. 13.5cm
(measured on the straight adapter)



Note: The quick disconnect couplings shown are not included in the scope of delivery! They are for illustrative purposes only!

You can find steel flex brake line kits with model selection in our specially designed online store at:

Product information

motorrad.helperforman

HEL-Performance® brake line kit, including banjo bolts** and accessories**

- No expansion of the lines at high temperatures
- eliminates the spongy feeling on the brake lever
- direct and precise braking point
- Teflon inner core with stainless steel sheathing
- only stainless steel connections
- Lower maintenance costs for the brake system
- Motorsport proven technology
