

Product information

Quick disconnect coupling orig. Stäubli CBR02.0550

Art.Nr.: STA-03-CBR02-CAP / manufacturer: [STÄUBLI](#)

STÄUBLI

213,00 EUR / pcs.

incl. 19% VAT plus 7,60 EUR DHL-Shipping

Delivery in approx. 2-3 weeks

Original dirt cap for Stäubli quick disconnect coupling type: CBR.02, EPDM seals, TITANIUM

Note: Please note the delivery time!

Product information

The clutch TYPE CBR.02 was developed
Smaller design than type SPH.03, lock

Stäubli quick disconnect clutches are well known and need no further explanation.
Except perhaps to point out that the clutches can be sent to Stäubli for overhaul/maintenance at any time.

Due to the material TITANIUM, the temperature of the brake system does not affect the sealing "rubbers" as much as with aluminum clutches.
The CBR series clutches are therefore often used in professional racing. Added to this is the smaller design, triple locking and lower weight than the SPH series. However, this also comes at a cost!

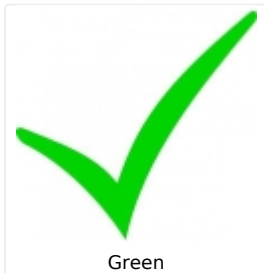

The clutch enables hydraulic lines to be disconnected quickly and cleanly without fluid escaping or air entering the system. They are suitable for brake fluids DOT3&4, such as Racing.

Scope of delivery: 1 x coupling half with EPDM seals CBR02.8550.TI.xx.JE

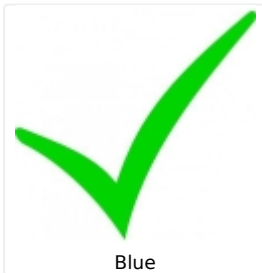

Material: Titanium, green or blue anodized
