Ready for dispatch within 1-2 working days. Delivery time approx. 3-5 working days!

HEL-Performance Stainless Steel Braided Hose! **GMS Race Kit!**

Product information

Fits Yamaha YZF-R6, (RJ11, RJ15,

The lengths and fittings are designed for stock brake calipers and brake master cylinders.

Also compatible with radial brake master cylinders from, for example, HEL-Performance or other manufacturers.

If you are using different brake master cylinders or calipers, please contact us.

Construction: Stainless steel-sheathed PTFE hose assembly, universally customizable to your specifications! Comes with a parts certification!

Scope of delivery: 1 x stainless steel braided brake line (4-piece set) with T-fitting and elbow (so-called "H" configuration)

Please order hollow screws and sealing rings as optional extras!

When ordering, please specify the desired line color, the connection type, and any brackets you may need, as well as the part numbers for 2.1 and 2.2, or HSN / TSN from the vehicle registration certificate, and—to be on the safe side—also include the vehicle details (make, model, type, year of manufacture).

You have 14 wire colors to choose from at no extra charge:

You can twist the connectors on the finished cable yourself for a twist-free installation—anytime!

For many models, we offer various installation options:

OEM, like the original (standard kit):

The brake lines match an original replacement part in length, number, and routing.

Alternatively, Full Length:

Two lines routed directly from the brake master cylinder—one to the right and one to the left—to the brake calipers.

Alternatively, Over the Mudguard:

One line runs directly from the brake master cylinder to the right brake caliper; the second runs from there over the fender to the left brake caliper.

HEL Performance Stainless Steel Braided Brake Line

- eliminates the spongy feel at the brake lever/pedal
- more direct and precise braking feel
- No line expansion at high temperatures
- Lower maintenance costs for the braking system
- Motorsports-proven technology
- Stainless steel fittings and hollow screws
- Stainless steel-sheathed Teflon lines
- Excellent abrasion resistance and corrosion protection
- Genuine HEL quality, as used in MotoGP, WSKB, BSB, and the IDM!

The fine line between victory and defeat

Every kilometer of a racetrack highlights just how important a well-balanced braking system is. Perfect control gives you the confidence you need, because the difference between a good rider and an average one is that one has their speed under control, while the other does not. That's why we here at HEL Performance manufacture the best brake lines, giving you the control you need for peak performance.

Every HEL Performance line is assembled in-house using the best stainless steel fittings and then crimped.

With us, you'll find the right brake line kit for your vehicle and get exactly what you expect: high-quality materials, excellent performance, and visually stunning brake lines.

HEL brake lines eliminate the spongy feel associated with rubber lines.

We use only stainless steel components for all parts of our lines—unlike other manufacturers, who use steel fittings that rust over time and pose a safety risk.

HEL Performance - Always No. 1 - What's Stopping You?
