Product information

HEL-Performance Stainless Steel Braided Hose! **GMS-Race Kit BUNDLE | ZX-6R - Cup Edition from 2025 onward**

Fits KAWASAKI ZX636-R (ZX-6R) from 2019 onward—ABS-DELETE | ZX-6R - Cup Edition since 2025

The lengths and fittings are designed for stock brake calipers and the HEL-Performance HMC2 radial brake master cylinder.
If you are using different brake pumps or calipers, please contact us.

Construction: Stainless steel-braided PTFE hose, universal fit based on your specifications! Comes with a parts certificate!

Scope of delivery:
1 x stainless steel braided front wheel brake line, 4-piece set with TEE and ELBOW (so-called “h” configuration)
1 x stainless steel braided brake line for the rear wheel, 1-piece
1 x CNC radial brake master cylinder HEL Performance HMC2-19mm-BK, black

Please order hollow screws and O-rings as optional extras!

The Cup Edition is only available in RED hose color.
You can twist the fittings on the assembled line at any time to ensure a kink-free installation!

For many models, we offer various routing options:
OEM, like the original (standard kit):
The brake lines match an original replacement part in length, number, and routing.
Alternatively, Full Length:
Two lines routed directly from the brake master cylinder—one to the right and one to the left—to the brake calipers.
Alternatively, Over the Mudguard:
One line runs directly from the brake master cylinder to the right brake caliper; the second runs from there over the fender to the left brake caliper.

HEL Performance Stainless Steel Braided Brake Line

Product information

- eliminates the spongy feel at the bra
- more direct and precise braking resp
- No line expansion at high temperatures
- Lower maintenance costs for the braking system
- Motorsports-proven technology
- Stainless steel fittings and hollow screws
- Stainless steel-sheathed Teflon lines
- Excellent abrasion resistance and corrosion protection
- Genuine HEL quality, just as used in MotoGP, WSKB, BSB, and the IDM!

The fine line between victory and defeat

Every kilometer of a racetrack highlights just how important a well-balanced braking system is. Perfect control gives you the confidence you need, because the difference between a good rider and an average one is that one has speed under control, while the other does not. That’s why we at HEL Performance manufacture the best brake lines, giving you the control you need for peak performance.

Every HEL Performance line is assembled in-house using the best stainless steel fittings and then crimped.

With us, you’ll find the right brake line kit for your vehicle and get exactly what you expect: high-quality materials, excellent performance, and visually stunning brake lines.

HEL brake lines eliminate the spongy feel associated with rubber lines.

We use only stainless steel components for all parts of our lines—unlike other manufacturers, who use steel fittings that rust over time and pose a safety risk.

HEL Performance - Always No. 1 - What’s Stopping You?
