49,50 EUR

incl. 19% VAT plus 7,60 EUR DHL-Shipping

🟢 Ready for dispatch within 1-2 working days. Delivery time approx. 3-5 working days!

Product information

(Includes stainless steel hollow screws* (*for fittings with ring connections/banjo fittings), includes copper O-rings)

#WhatsStoppingYou #RideTheBestYouCan #RideHEL

Hollow screws*, sealing rings, brackets, guides, or manifolds are already included in the kit!!

Compare prices! Ready-to-install brake line kits for your vehicle are always supplied by HEL Performance with the necessary fittings and hollow screws made of the finest stainless steel, copper sealing rings, rubber guides (e.g., grommets), or brackets. Splitter blocks or connector blocks—for example, for connecting to the metal ABS lines—are also included and have already been permanently crimped to the hose during production. Lens-shaped seals, as used by many other suppliers, are completely eliminated, since the blocks themselves feature the appropriate sealing cone. **At HEL Performance, you pay no extra charge for any of this!!!!**

*Some lines do not require a hollow screw, as they already have a connection with internal or external threads.

#LessTinkering #YouGetWhatYouNeed #RideTheBestYouCan #RideHEL

with ABE, parts certification, or technical certification for special modifications

Sometimes you simply need more than just an ABE or a parts certificate. For special applications and modifications, we also offer a purely technical certificate. Regardless of the vehicle type or intended use! This gives you maximum flexibility for your project!

Note: No ABE is required for clutch lines!

#FitAndRide

Stainless steel fittings, at no extra charge, can be rotated at any time

No matter how far or how often!! Even back-and-forth movement is no problem thanks to HEL Performance's unique design. You've got our word on it!!!!

Stainless steel fittings are our standard, at no extra charge! We won't put anything else on your bike or car!

#EasyMount #NoCompromises

PVC sheathing at no extra charge!

Already included in the price: PVC sheathing available in up to 14 different colors of your choice.

#BetterOptic

Custom-fit cable kits!

Easy installation, since every brake line kit comes with all the necessary accessories—such as the required hollow screws*, O-rings, and mounts—already attached to the hose! No hidden extra costs

Product information

Precise brake pedal feel, improved bra

Thanks to improved modulation and a precise pressure point, you'll gain a whole new level of control over the entire braking process!

[#RideTheBestYouCan](#)

All mounting parts are developed and manufactured by HEL in England!

HEL Performance has an arsenal of machines on which we manufacture all fittings ourselves from the finest stainless steel. This allows us to fully control every process, from the very first step all the way to the finished brake line. You get the best product straight from our factory.

[#NoCompromise](#)

Brake lines manufactured in Germany (Made in Germany)

Every HEL Performance line is assembled in-house using the best stainless steel fittings and then permanently crimped on modern, digitally controlled machinery. Every line undergoes a final inspection before it is shipped.

[#SafetyFirst](#)

Motorsport-proven technology

Our products are used in the highest classes of motorsport. Whether it's MotoGP, Moto2, Moto3, or EWC (the premier class in terms of material requirements), you always get the same, top-notch HEL quality!

[#RideTheBestYouCan](#) [#RideHEL](#) [#TeamHEL](#)

Stainless steel braided brake lines and kits from **HEL Performance** optimize your motorcycle's braking system. With improved modulation and a precise bite point, you'll gain a whole new level of control over the entire braking process! Whether you ride a MotoGP, Moto2, Moto3, WSBK, IDM, or EWC motorcycle—or even a simple 50cc scooter—every vehicle must have the best possible braking system in every situation. Stainless steel braided brake lines from HEL Performance are the key to achieving this.

The fine line between victory and defeat

Every kilometer of a racetrack highlights just how important a well-balanced braking system is. Perfect control gives you the confidence you need, because the difference between a good rider and an average one is that one has their speed under control, while the other does not. That's why we at HEL Performance manufacture the best lines, giving you the control you need for peak performance.

With us, you'll find the right brake line kit for your vehicle and get exactly what you expect: high-quality materials, excellent performance, and visually stunning brake lines.

We use only stainless steel components for all parts of our lines—unlike other manufacturers, who use steel fittings that rust over time and pose a safety risk.

Choose your desired color and click "Add to Cart" to order your HEL brake lines.

HEL Performance offers brake line kits with so-called **"alternative routing" options—even with ABE certification!**

For many models, we offer various routing options:

OEM, like the original (Standard Kit): The brake lines match an original replacement part in length, number, and routing.

Alternatively, Full Length: Two lines routed directly from the brake master cylinder—one to the right and one to the left—to the brake calipers.
