Delivery in approx. 2-3 weeks

Product information

HEL-Performance® stainless steel adapter quick disconnect couplings, black burnished version (METAL-BLACK)

Banjo 10mm and fixed internal thread 3/8 "x24UNF

(Pictures in black will follow shortly)

This adapter enables the installation of quick disconnect couplings with 3/8 "x24UNF external thread and sealing cone.

As a special feature, this new adapter is designed so that e.g. quick disconnect couplings of the type SPH.03 of the Stäubli brand can be screwed in directly. The length of the fixed internal thread in size 3/8 "x24UNF is designed so that the coupling fits perfectly. Sealing is provided by the integrated sealing cone.

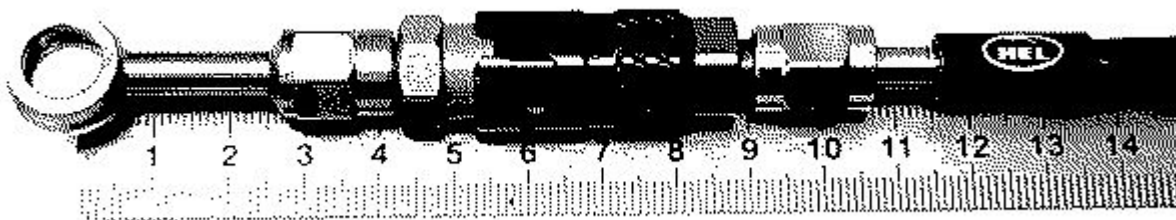

The adapter can be cranked up to 90° or bent sideways. The combination of cranked and bent sideways (RB or LB) is also possible at no extra charge. If required, please enter the desired angle in the comments field.

The stainless steel adapter has 1 x banjo 10mm and 1 x internal thread 3/8 "x24UNF !

Scope of delivery: 1 x stainless steel adapter

Length from center of banjo to end of internal thread = approx. 43mm

Length including quick disconnect coupling (Stäubli SPH.03) and connection with press sleeve = approx. 13.5cm
(measured on the straight adapter)

Note: The quick disconnect couplings shown are not included in the scope of delivery! They are for illustrative purposes only!
